

TEMPORARY HOUSING

NRI Relocation provides temporary living options worldwide. We currently have over 750 partners in 1,000+ cities. Solutions can be found for specific areas, properties, arrival dates and school districts.

NRI is independent and has no bias in our choices. Because we have no financial interest in any option provided, you can have confidence that your employees will be presented with the best options at the best rates, based on your specifications and your employee's needs.

Our no surprise pricing means everything is included in their corporate apartment: furniture, housewares, utilities, phone, cable, internet, cleaning, and repairs.

The many comforts and amenities of the apartment community, coupled with 24/7 support, means your employee will be virtually worry free during their short term stay and able to better focus on their work. Most importantly, they will know how much you care about them during their transition.
